A building's lowest floor is the floor or level (including basement) that is used as the point of reference when rating a building. This includes the level to which a building is floodproofed. For more definitive information, refer to the NFIP Flood Insurance Manual. The lowest floor elevation of the insured structure in tenths of feet is supported by an elevation survey of the property. Value 9999 indicates the field is not reported and/or used for this policy. Note: In Claims Master File (CMF), whole feet are used.

EDIT CRITERIA: Numeric, may be positive or negative

LENGTH: 6 with an implied decimal of one position

DEPENDENCIES: Information is obtained from the Flood Insurance Application.

SYSTEM FUNCTION: Used in computing elevation difference between lowest floor and base flood elevation (BFE)

REPORTING REQUIREMENT: Required for new business policies on or after May 1, 1997.

The Residential Condominium Building Association Policy form also provides replacement cost coverage on the building coverage.

Replacement cost is not market value, and it does not include the cost of the land. It is strictly the estimated cost to reconstruct the building.

The company may establish and report the estimated replacement cost amount using normal company practice. ■

EDIT CRITERIA: Positive numeric in whole dollars

Note: If the New/Renewal Indicator is "E" or the Total Amount of Insurance - Building is zero, the Replacement Cost can be zero. ■

Exceptions to this availability are manufactured (mobile) homes or travel trailers, unless they are double-wide, and appurtenant buildings.

Replacement cost is not market value, and it does not include the cost of the land. It is strictly the estimated cost to reconstruct the building.

EDIT CRITERIA: Alpha, Acceptable Values:

W2MYCOMP

Invalid Preferred Risk Policies (PRPs)
Based on Loss History

Description: This report is produced each month after processing the WYO company's TRRP submission. It provides detail policy information on ineligible PRPs due to the repetitive loss eligibility requirement. The policies included in this report are:

1. PRPs that will be up for renewal at least 120 days from the date of processing and whose property addresses match those found on the Repetitive Loss Master File. These policies cannot be renewed as PRPs.
2. Records for policies previously reported to WYO companies as ineligible but renewed as PRPs and errored under the TRRP Plan editing.
3. New Business transactions errored for the repetitive loss eligibility requirement.

Policies in categories 2 and 3 must be cancelled or be endorsed or rewritten as an SFIP on the policy term's effective date. The insurer is required to take immediate action. There is no tolerance level for these errors.

The report provides the policy number, policy effective date, policy expiration date, and the prior dates of loss. Also included is the invalid PRP indicator that shows whether the policy was previously reported as ineligible prior to renewal and, subsequently, renewed as a PRP, value Y. Ineligible PRP policies reported for the first time prior to renewal will contain a value of N.

The data will be available in several media: (1) electronically, via E-mail, (2) cartridge, and (3) hard copy report. Due to the low volume of data expected, the default media will be the hardcopy report. The WYO companies must notify their Program Coordinator of their preference, in order for the NFIP Bureau and Statistical

Agent to provide the data on the media of their choice. If E-mail transmission is chosen, the WYO company must provide the Program Coordinator with a valid E-mail address.

The record layout for the electronic format, that is, magnetic cartridge or E-mail, is as follows:

<u>Data Element</u>	<u>Field Length</u>	<u>Record Position</u>

Note: The insured name and claim payments will no longer be available. All three occurrences, for both data elements, will be replaced with spaces (filler) in order to retain the original record length. The date of loss for each occurrence will still remain.

Invalid Preferred Risk Policies (PRPs)
Based on Ineligible Flood Risk Zone

Description: This report is produced each month after processing the WYO company's TRRP submission. It provides detail policy information on ineligible new business and renewal PRPs due to the flood risk zone eligibility requirement.

These policies must be canceled or be endorsed or rewritten as of the policy's effective date as an SFIP. The insurer is required to take immediate action. There is no tolerance level for these errors.

A WYO company may appeal the eligibility of a PRP by providing the following documentation: (1) Copy of the map with the property identified on it along with a copy of the FIRM cover, or (2) Certification from a flood zone determination company that has the community number, map panel number, and suffix on it, or (3) Certification from the community official that has the community number, map panel number, and suffix on it.

The report provides the policy number, policy effective date, policy expiration date, and the flood risk zone as determined by the NFIP Bureau and Statistical Agent.

The data will be available in several media: (1) electronically, via E-mail, (2) cartridge, and (3) hard copy report. Due to the low volume of data expected, the default media will be the hardcopy report. The WYO companies must notify their Program Coordinator of their preference, in order for the NFIP Bureau and Statistical Agent to provide the data on the media of their choice. If E-mail transmission is chosen, the WYO company must provide the Program Coordinator with a valid E-mail address.
